WEB RESUME

From product to support: I build and ship software from start to finish.

Full-stack developer and freelancer. I build and ship my own products (GEOPilot, Gestolio, Hostiva and DadoManía), covering the full cycle: product, development, deployment and support. Higher Technician in Multiplatform Application Development, DAM (2026). I work daily with AI: I integrate it into my products, design agent systems and build with coding agents. Currently pursuing a Cybersecurity Master's (2026 - 2027), with a focus on web application security.

3
products in production (GEOPilot, Gestolio and DadoManía)

1
platform in development with a security focus (Hostiva)

C1
English with an academic year in Canada

PRODUCTS

Own products in production and in development.

OWN SAAS · IN PRODUCTION

GEOPilot

SaaS platform for SEO and GEO (Generative Engine Optimization) content generation. AI article-generation pipeline, real token-based cost calculator, editorial calendar with scheduled publishing, and an AI visibility checker module. Validated with my own product: Gestolio is cited as a source in Google AI and Perplexity answers about Spain's Form 303 VAT return, measured with GEOPilot's visibility module.

Next.js · Firebase · Gemini + Claude · Stripe · Vercel

View in production

OWN SAAS · IN PRODUCTION

Gestolio

Fiscal management PWA for Spanish freelancers: invoicing, expenses, VAT and income-tax calculations, quarterly tax summaries, fiscal calendar and an AI assistant. Freemium model with Stripe subscriptions and passwordless sign-in with passkeys (WebAuthn).

Next.js 14 · Supabase · Stripe · WebAuthn · PWA

View in production

OWN PLATFORM · IN DEVELOPMENT (PHASE 1 COMPLETED)

Hostiva

Direct booking, online check-in and guest registration (Spanish SES Hospedajes) platform for tourist apartments, designed with security as a requirement: two-factor authentication with TOTP, tenant data isolation with Row Level Security, encrypted check-in data, Stripe subscriptions, tests and security review.

Supabase · Row Level Security · 2FA TOTP · Stripe · Encryption

Demo on request

OWN GAME · IN PRODUCTION

DadoManía

Web strategy and dice defense game with real players. Chest progression, in-game currency shop and a staging environment separated from production (dedicated Supabase project and deployment branch) to validate every release before publishing.

Supabase · Vercel

View in production

FEATURED ACHIEVEMENT

Real case: Gestolio cited by Google AI and Perplexity

Gestolio appears as a source in Google AI and Perplexity answers about Spain's Form 303 VAT return, and GEOPilot detects it in 2 out of 3 AI engines queried.

TECHNICAL STACK

The tools I use to take a product from idea to production.

Frontend

HTML5 · Responsive CSS · JavaScript · React · Next.js · Accessibility

Backend and data

Node.js · Firebase · Supabase · SQL · REST APIs

Product and business

Stripe (subscriptions) · Vercel · PWA · SEO/GEO · Analytics

Security

- 2FA authentication (TOTP)
- Passkeys (WebAuthn)
- Row Level Security
- Data encryption
- OWASP Top 10

Applied AI

- AI model integration in product
- Human-in-the-loop agent systems
- Development with coding agents (Claude Code, Gemini)
- AI search optimization (GEO)
- Prompt engineering

DAM foundation

- Java
- Python
- Android

EXPERIENCE

Real work: own products and clients.

01 **2025 - Present**

Full-stack developer and founder (freelance)

Design and development of my own SaaS products and custom platforms. Full cycle: product, development, Stripe subscriptions, deployment and support. Design of a custom AI agent system with a human approval queue to automate marketing for my products.

02 **2024 - 2025**

Web developer at a design and marketing agency

Web development for clients: HTML/CSS layout, HTML email signatures, WordPress.

EDUCATION

Technical academic base and international experience.

01 **2026 - 2027**

Cybersecurity Master's · Digitech FP · In progress

Offensive and defensive security, with a focus on web applications.

02 **2024 - 2026**

Dual Higher Degree in Multiplatform Application Development

Higher Technician degree completed in 2026. Training focused on programming, databases, web development, mobile development and systems.

03 **2023 - 2024**

Rey Juan Carlos University

Degree in Science, Management and Service Engineering. Early university experience with technology, management and teamwork.

04 **2022 - 2023**

Salmon Arm Secondary, Canada

Scientific baccalaureate studied in English, with academic and cultural immersion.

WORKING STYLE

End-to-end ownership, with a focus on product and detail.

Full ownership

I take a product from idea to production: product decisions, code, security, deployment and support.

Visual care

I pay attention to hierarchy, spacing, contrast and consistency so the interface feels intentional, not improvised.

Communication

I work well with clients and teams, ask when needed and explain solutions clearly.
